Guidance for Field Managers related to Action Required following the 9-5 Court Order.pdf;

Please remind field managers under your direction of their obligations under the Temporary Restraining Order (TRO) and the "Guidance for Field Managers Relating to Action Required following the 9-5 Court Order" which was sent on September 7. (Copy attached). That guidance includes a specific direction to "[r]efrain from releasing data collection staff (enumerators and CFSs) in Area Census Offices where operational progress indicates the area is in Phase 2 or the Closeout phase of the NRFU operation." Terminations for reasons other than performance, conduct or voluntary resignation is inappropriate while the TRO remains in effect. This includes "Lack of Work" termination actions - those are inappropriate under the TRO.

Let me know if you have any questions.

Guidance for Census Bureau Field Employees

A federal district court for the Northern District of California issued a preliminary injunction in the late evening on 9/24/2020 in the case of National Urban League v. Ross, No. 20-05799.

The Census Bureau and the Commerce Department are obligated to comply with the Court's Order and are evaluating how it will affect decennial operations. Until that time, continue to conduct NonResponse FollowUp (NRFU) and other field operations as planned. We will provide further instructions and guidance as necessary.
